scholars of modern japan agree that education played a crucial role in that country's rapid modernization during the meiji period 1868 1912 with few exceptions however western approaches to the subject treat education as an instrument of change controlled by the meiji political and intellectual elite principle praxis and the politics of educational reform in meiji japan offers a corrective to this view by introducing primary source materials including teaching manuals educational periodicals and primary school textbooks missing from most english language works mark lincicome examines an early case of resistance to government control that developed within the community of professional educators he focuses on what began in 1872 as an attempt by the newly established ministry of education to train a corps of professional teachers that could civilize and enlighten the masses in compulsory primary schools through the tokyo normal school and other new teacher training schools sponsored by the government the ministry began what it thought was a straightforward technology transfer of the latest teaching methods and materials from the united states and europe little did the ministry realize that it was planting the seeds of broader reform that would challenge not only its underlying doctrine of education but its very authority over education the reform movement centered around efforts to explicate and disseminate the doctrine of kaihatsushugi developmental education hailed as a modern scientific approach to child education it rejected rote memorization and passive learning elements of the so called method of pouring in chunyu knowledge practiced during the preceding tokugawa period and sought instead to cultivate the unique innate abilities of each child orthodox ideas of education knowledge and the process by which children learn were challenged the position and responsibilities of the

teacher were enhanced consequently providing educators with a claim to professional authority and autonomy at a time when the meiji state was attempting to control every facet of the japanese school system principle praxis and the politics of educational reform in meiji japan analyzes a key element to understanding meiji development and modern japan as a whole

research on quotation has yielded a rich and diverse knowledge base scientific interest has been sparked particularly by the recent emergence of new quotative forms in typologically related and unrelated languages i e english be like hebrew kazé japanese mitai na the present collection gives a platform to research conducted within different linguistic sub disciplines and on the basis of a variety of western and non western languages the introduction presents an overview of forms and functions of old and new quotative constructions the nine chapters investigate quotation from different perspectives from conversation analysis over grammaticalization and language variation and change to typological and formal approaches the collection advocates a comprehensive approach to the phenomenon quotation seeking a more nuanced knowledge base as regards the linguistic properties social uses and pragmatic functions than monolingual or single disciplinary approaches deliver the cross disciplinary nature and the wealth of data make the findings broadly available and relevant

this text identifies the indigenous roots of american liberal theology and uncovers a wider longer running tradition than has been thought taking a narrative approach the text provides a biographical reading of important religious thinkers of the time
